

PRODUCT DESCRIPTION

MX455 series strip conversion kit is designed to provide maximum efficiency to meet fluorescent fixture lighting standards for retail, industrial and commercial applications. They easily convert existing 4 and 8 fluorescent strip fixtures to enhance light levels. The kits are shipped fully assembled and pre-wired to allow fast, easy installation with minimal labor. Fluorescent lamps currently dominate the commercial sector, where they account for 80 percent of installed lamps. LED lighting products are receiving a great deal of attention for their potential to

FEATURES:

- Surge protector
- White painted parts are treated with a five-stage phosphate bonding process and finished with high reflectance baked enamel
- Low profile design optimizes shipping, storage, and handling
- Polycarbonate lens, high flame retardant point
- Performance engineered optical lens assembly delivers unique beam angles and reduces glare.
- Customized dimension is available
- Energy-efficient retrofit for striplight
- Fast and easy to install
- High quality LED Chips provide high efficiency, heat dissipation, stability, and lumen maintenance
- Driver disconnect provided where required to comply with US and Canadian codes
- Class II driver, with 0-10V or Triac dimming

APPLICATIONS:

Exiting fluorescent strip light

1 FOR ALL AMERICAN STANDARD STRIPLIGHT

OPTIONS:

Options	Order Code
AC347-480V High Voltage	347V
